

[software name] Survey

Please follow the instructions given on this page step by step. If followed properly it will take you less than 60 minutes to complete the survey.

1. Navigate to the [[anonymous URL](#)] and create an account.
2. In order to complete the task on our website, you must be familiar with our application. The simulation software is difficult to use without prior knowledge. Please watch the video tutorial that we have made for you to become familiar with our software (you must be logged in to our system to watch this video).

3. Navigate to the homepage, [[anonymous URL](#)], and follow the instructions to create a simulation on our platform.
 - a. On the homepage, click on the “Create a New Simulation” link.
 - b. On the New Simulation page follow the steps below to create your own simulation model:

Create a new model:

In the create simulation page you will see a stepper window that consists of 5 steps. Below we provided all the instructions on how to fill up every step in that menu. Follow the instructions one by one and click on the next button to move to a new step.

A video  icon is placed in every step that can help you accomplish your task.

Step 1: Name and location

1. Choose any name for your simulation.
2. Type and select any city for your simulation.
